Chief,

Attached are some case examples from the Vintra website. They are all very impressive. I will contact Vintra and see if they have additional examples. Erin

**Subject:** Vintra Software

Jared, Erin and Becky:

Thank you for the presentation. I believe that Vintra will assist you in building on an existing strength of LPD and a need that supports our agency's mission. You are clear to begin the process of purchasing the software.

In order to sustain this rather expensive endeavor, I need data to evaluate the successes. This can be combined with studies that have been completed in the past showing increased clearance rates, etc.

As you work through the purchase, please get me 3 to 5 ways in which we can objectively evaluate it.

Have a great weekend.

Jeff
